## **LIABILITY INCIDENT RECORDING GUIDELINES**

We would recommend that a designated person within your organisation is made responsible to record any reportable accident. Records must be kept for at least 6 years and significantly longer where the incident involves a minor as they have up to the age of 18 plus 3 years to make a claim. Names and addresses of any possible witnesses should also be recorded.

It is essential that you use a data protection compliant, accident book, available from HSE Books.

The register must contain the following information relating to all reportable accidents or dangerous occurrences:

- date and time of accident
- as regards a person at work - full name; occupation; nature of injury; age
- as regards a person not at work - full name; status [e.g. customer]; nature of injury; age
- place where accident occurred
- a brief description of the circumstances
- method by which the event was reported.
- 

Strict timescales are now in place to direct the handling of claims, and if these are not adhered to it may mean insurers will be obliged to admit liability and pay the claim.

## **INCIDENT NOTIFICATION GUIDELINES**

It is important that all incidents that may give rise to a claim are reported to Perkins Slade Ltd as soon as possible after the event. We would ask you to contact the Archery GB Insurance Officer with initial details so that this can be passed on to Perkins Slade Ltd as quickly as possible. This will enable Insurers to carry out investigations at an early stage whilst information relating to the claim remains fresh in the mind. This will also ensure that you are complying fully with your policy terms and conditions.

Additionally you are also required to comply with the amendments to the Ministry of Justice procedures which came into effect on 31<sup>st</sup> July 2013. These require disclosure of insurance details within 24 hours of contact by Third Party solicitors following an injury where you may be liable. Failure to comply with the revised procedures will result in a sharp increase in costs.

In order to achieve this, you should notify Perkins Slade Ltd immediately of any incident that involves:-

- a fatal accident.
- an injury involving either referral to or actual hospital treatment.
- any allegations of libel/slander.
- any allegations of Professional Negligence i.e. arising out of tuition, coaching or advice given.
- any investigation under any child protection legislation.
- any circumstance involving damage to third party property.

An injury is defined as:-

- any head injury that requires medical treatment (Doctor or Hospital).
- any fracture other than to fingers, thumbs or toes.
- any amputation, dislocation of the shoulder, hip, knee or spine.
- loss of sight (whether temporary or permanent).
- any injury resulting from electrical shock or burn, leading to unconsciousness or requiring resuscitation or admittance to hospital for more than 24 hours.
- any other injury leading to hypothermia, heat induced illness or to unconsciousness which requires resuscitation or admittance to hospital for more than 24 hours.
- loss of consciousness caused by asphyxia or by exposure to a harmful substance or biological agent.

Please note the above list is not exhaustive and if you are unsure as to whether an incident should be reported, then please do not hesitate to contact the Archery GB Insurance Officer on the usual number for guidance or Perkins Slade Claims Department for further advice on 0121 698 8040.

### **Reporting Incidents to Health & Safety Executive**

RIDDOR - Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995

You may also have obligations under the RIDDOR 95 regulations to report incidents to the HSE. For further information and to obtain a copy of the "RIDDOR explained" leaflet log onto the HSE website [www.hse.gov.uk](http://www.hse.gov.uk).

**IMPORTANT NOTE: We would remind you that in NO circumstances should you admit liability or agree to pay for any damage caused as this may prejudice the position of Insurers and COULD result in the withdrawal of any indemnity.**

**Finally, please note that this is a Liability Policy where Insurers decide if negligence attaches to you. Therefore any payments you make to third parties will not necessarily be reimbursed.**

#### **14. The Results Sheet – Double Rounds**

- (a) Where a double round is being shot, the results sheet is to show the total score and the tie break details for each round and also for the double round. **16. Tie-Break Data.** The winners of an event are decided by the score achieved. If two or more archers are tied on score, tie break data is used to decide the winner. Therefore, and as indicated above, scoresheets and results sheets must include this data. The tie break data required is identified in the Archery GB Rules of Shooting or the WA Constitution and Rules, to which reference

should be made. Note that WA target rounds, WA field rounds and Archery GB metric target rounds (when shot to WA standards) do not use the number of hits as tie break data and therefore, to avoid confusion, the number of hits should not be shown for these rounds.

**17. Match Play Rounds.** Match play rounds involve a series of head to head matches, preceded by a qualification or seeding round. The results sheet is to contain full details of the qualification round as detailed above. In addition, for the match play rounds, two presentations of the results are required within the results sheet as follows:

- (a) An order of merit showing each archer's final position. Archers are to be shown in descending final position order and the match scores (points or arrow value as appropriate) given.
- (b) A match play (brackets) chart showing each archer's seed number for the first match round, who shot against whom in each match and each archer's match scores (points or arrow value as appropriate).

**18. Field Archery Elimination and Finals Rounds.** These rounds involve knock-out and match play rounds. The results sheets is to provide details of these rounds in formats equivalent to those used for target archery match play rounds as described in para 17 above.

**19. The Results Data Export File – Essential Requirements.** The results data export file is mandatory for target outdoor and target indoor events. The data are used for management purposes within Archery GB. The results data export file is a computer file giving a tabular list of the competitors who complete a round showing their performances at an event. In many cases the source for the file will be a spreadsheet or database table/query. The name, location and date(s) of the event must be given. The tabular list must show each archer on a separate row with the following information in separate columns each with a suitable heading:

- (a) Archery GB membership number (for Archery GB members).
- (b) Forename.
- (c) Surname.
- (d) Gender.
- (e) Bowstyle.
- (f) World Archery Category (M/W/CM/CW/JM/JW/MM/MW) for WA rounds, or Archery GB age group.
- (h) Score for each round.
- (i) Tie break data as applicable, ie Hits, Golds, Xs, 10s, 9s; (this information is round dependent).
- (j) For WA (Gents)/(Ladies)/(Cadet Ladies) and Archery GB Metric I-V Rounds only. The 4 distance totals. The title of the columns is to indicate the distance shot, eg 90m, 70m etc.
- (k) Other columns may be included.

**20. Electronic Formats.** The required electronic formats for the documents are:

- (a) Result sheet, entry form & target list – Formats compatible with Adobe Acrobat Reader, Microsoft Word or Microsoft Excel eg .pdf, .doc, .docx, .rtf, .xls, .xlsx etc.
- (b) Results data export file – Formats compatible with Microsoft Excel eg .xls, .xlsx .csv or the Ianseo Shoot File (.IANSEO) etc

In case of doubt concerning the results data export file or its format, e-mail [results@archerygb.org](mailto:results@archerygb.org) for advice.

**21. Special Circumstances.**

- (a) Flight Shooting. The procedures outlined above are to be adhered to except where it is self-evident that they do not apply to flight shooting. Equivalent document formats are to be produced.
- (b) Traditional longbow target shooting (two-way). Archery GB does not recognise traditional longbow target shooting for record purposes. Therefore, organisers may produce scoresheets and results sheets that meet their needs.

- (c) At a multi session event, archers may compete only once. However, they may shoot more than one session at the tournament organiser's discretion. The performance of archers shooting more than once is to be shown in the results sheet, either in a separate round/gender/bowstyle group with an appropriate title, or within the main group, in which case it must be clear that this is a second (or third etc) shoot and no order of merit position is to be given.
