Judges Information Update July 2016

New Judge

We have a new judge to add to our ranks. Christine Straughan joins us as a candidate in Durham and Northumberland, the registrar has been informed. Welcome to the team Christine.

Retirement

I have received formal confirmation of retirement from Neil Foden. He has now recovered from his surgery and had been cleared to fly. I hope you will join me in thanking Neil for all his hard work and dedication to judging over the years and wish him all the best in the future.

Target face licence

As many of you may have seen World Archery have advised Archery GB that the partnership between World Archery and Bjorn Bengston Sweden AB has terminated, therefore target faces from this manufacturer are no longer accepted by World Archery. As from 1 August these target faces cannot be used for World Record or Arrowhead status events. **This does not affect club and UK record status events.**

Interpretations

World archery has released new interpretations on multiple lip and nose marks, para sights and barebow shock absorbers. Also, a new rule on wheelchairs. Please find attached along with this update and add to your records.
